Section 8 Measuring, Scoring Procedure and Resolving Ties for Distance jumps

(a) Measuring

(i) A judge will evaluate all jumps using a manual judging system and will judge all jumps by eye.

(b) Pier Pups scoring is based on distance. The dog will jump from the end of the dock and into the pool. The Team that achieves the longest distance score in their division wins.

(i) Official Jump Distance

- 1) The official jump distance will be measured from the lateral midpoint of the end of the dock to the point at which the base of the dog's tail breaks the water's surface, specifically, the point where the dog's tail meets the body.
- 2) Both of the team's jump distances will be recorded. The longest of the two jump distances will be assigned as the team's score.
- 3) If the dog walks down the exit ramp and jumps into the pool from the ramp, the score will be recorded as a refusal.
- 4) If a dog jumps into the water while the handler is on the dock, but prior to the throwing of the chase object, the team may, at the judge's discretion, be allowed a re-run.

(c) Resolving Ties

(i) When there is a tie between two or more teams in a competition session, each Team's second longest jump distance in that session will be used as a tie-breaker.

(ii) If a team is tied for First, Second or Third Place with another team at the end of the session, and Jump #1 and Jump #2 are the same score, a one jump "jump-off" shall occur until there is a defined winner. The Team with the longest jump of the "jump-off" shall be declared the winner.

(d) The Bubble and Final Jump Off Rules

(i) The top five dogs of the day in the Master, Pro, Open and Novice divisions will move on to the Final Jump Off.

- 1) The "Bubble Board" will be posted after each session to reflect to current position in the Bubble for each dog.
- 2) The "Bubble Board" will list each team's highest score (i.e. their longest jump of the day to that point).
- 3) The Final "Bubble Board" will be posted after the last regular competition session of the day and the five dogs with the longest jump in each division will move on to the Final Jump Off.
- 4) In the event that multiple dogs have a bubble score that is tied, those teams will move on to the Final Jump Off.
- 5) In the Novice division, only dog's with scores of five (5) feet or longer will be invited to the Final Jump Off regardless of the number of Novice teams in the Novice division competing in the Final Jump Off.

(ii) It is the responsibility of the handler to determine if his/her team has made it to the Final Jump Off. If the team does not check in 15 min. prior to the start of the Final Jump Off, the next dog in line will take their spot so that five dogs in each division will compete in the Final Jump Off.

(iii) Participation in the Final Jump Off is free.

Section 9 Scoring Procedure, Placing, and Resolving Ties for Grab-It

(a) Pier Pups scoring for Grab It is based on a combined score of jump distances resulting in successful catches plus a Bonus if **both** jumps result in a catch. Two jumps per session are allowed to obtain your combined score.

(i) Official Jump Distance

- 1) The official jump distance will be measured from the lateral midpoint of the end of the dock to the point at which the base of the dog's tail breaks the water's surface, specifically, the point where the dog's tail meets the body.
- 2) In both rotations, the jump distances with a catch will be recorded and added together for a combined score. The toy must be above the plane of the water during the catch to be counted.
- 3) If the dog walks down the exit ramp and jumps into the pool from the ramp, the score will be recorded as a refusal.

- 4) If a dog jumps into the water while the handler is on the dock, but prior to the throwing of the chase object, the team may, at the judge's discretion, be allowed a re-run.
- (ii) A 10 point Bonus will be added to the team's score if both jumps result in a catch. For example, if the team's first jump results in a catch at 10' 6" and their second jump results in a catch at 12' 6", the team's score would be 33' (23' combined jump distance + 10 point bonus).
- (b) A team's placement in a division is based on the team's score including bonus as set forth in Section 7(a).
- (c) Resolving Ties
 - (i) When there is a tie between two or more teams in a competition session, the team with the highest individual jump distance will decide the winner.
 - (ii) In the event that both jumps have the same distance, a "jump off" will decide the winner.
 - (iii) In a "jump off", each competitor is allowed one more jump and longest jump with a catch wins. A one jump "jump off" shall occur until there is a defined winner.
- (d) Scores in Grab-It will not be used for the Bubble and will not move a team into the Final Jump Off.
